PREFACE

Salt Range Foods Pvt. Ltd. is a leading exporter and supplier of premium honey sourced from some of the best farms of India. Located at the foothills of mountains, we strive to supply one of the finest, sweetest and most quality consistent products. Our processing facility is **HACCP & ISO 22000 Certified**.

We are also registered with **Export Inspection Council** of India. Our quality control laboratory can conduct extensive tests to determine the quality of honey during purchasing, processing and packaging so that you may enjoy on the finest quality honey which adheres to all the quality norms across the globe.

We offer some of the best honey varieties gathered from India. We specialize in supply of **rapeseed/mustard, multiflora, sunflower, litchi, eucalyptus, acacia** and several other scrumptious honey varieties.

We at **Salt Range** have made it our mission to ensure that the honey produced by us is consistent year after year, barrel after barrel, giving every home the same superior experience of rich taste and unwavering quality.

Discover the Natural **Goodness of Honey**

When we feel entrapped within the complex maze of science and technology, nature provides us with an escape. A store house of everything pure, nature offers us with a myriad unadulterated antidotes and honey is one of them.

Honey is a pure and natural product made by bees from the nectar of flowers. Besides being used as a food supplement, honey is used in various medicinal traditions to treat ailments and has a long history of human consumption. It is a product that is universally acknowledged and used for its numerous benefits.

We take joy
in cherishing
**the PURITY
OF NATURE**

Natural Honey is produced by bees collecting nectar for use as sugars consumed to support metabolism of muscle activity during foraging or to be stored as a long-term food supply.

During foraging, bees access part of the **nectar** collected to support metabolic activity of flight muscles, with the majority of collected nectar destined for regurgitation, digestion, and storage as honey. In cold weather or when other food sources are scarce, adult and larval bees use stored **honey as food**.

NATURAL BEEKEEPING

Our long experience in **Beekeeping Industry** has given us ample insight in to the needs of beekeepers and enabled us to develop tools and equipment for best utilization & maintenance of beehives for optimum production of honey. We take utmost care in handling of beehives by our beekeepers.

Our beekeepers undergo **training** and orientation programs from time to time by National Bee Board. These training programs help our beekeepers to keep themselves abreast of modern beekeeping techniques for production of **best quality honey** as per requirement of highly quality conscious customers in different parts of the world.

TRAINING ON SCIENTIFIC BEEKEEPING

CONSUMER PACKAGING

We provide numerous packing options for our buyers like, Glass Jars, PET Jars, Sachets, Squeeze in various size's and patterns. We also pack honey in food grade Steel drums for Bulk buyers in International market.

Various packing options give our customers flexibility to choose from various packing options and different qualities of honey available with us.
